Mission Statement

Each of my paintings is a personal vision realized, expressing my feelings drawn from experiences in the world.

My desire is to create images that will add an allure to your walls, and thereby your environment.

My paintings are the result of working in various mediums over many years. Paint, Paper, Clay and Design have contributed to the skill set used to create each piece, using a variety of materials, including oil paints, acrylics, watercolors, inks, papers and pastels.

Profile

I work mostly in oils, but occasionally combine various media for a specific effect. This might include acrylics, paper, pastels, watercolors and inks.

Experience

I have been creating wall images, for many years, and I have been in shows and galleries from Maine to Hawaii. I co-owned and ran a studio-gallery on Vashon Island, and the Big Island of Hawaii. While in Hawaii I established a decorative tile company, and created the original designs, which were applied using a silkscreen technique, then glazed and kiln fired.

Exhibitions

Here are a few of the venues I have been a part of over the years. Oldest to newest.
